

The 50 MHz DX Bulletin

Volume 12, Issue 1

January 2001

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is frank@horizon.sri.com. I am taking an HTML class and have a web site under construction at <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

Administrivia

Yes, our subscription rates have changed! We no longer have enough subscribers for third class mail. (We've been sending all USA subscribers their bulletins by first class mail for some months now.) Why the odd rates? Accounting! The new rates are evenly divisible by 12. Those of you with \$20 subscriptions yet to run out just might find one or more bulletins sent by third class mail if we do a subscription drive.

Where's the DX? January has been pretty dry all around the world, as far as six meters is concerned, and especially so in the USA. Don't put that 6m rig up for sale quite yet, however, conditions are bound to improve in coming months. Inside, you will find the results of the year 2000 SMIRK and 50 MHz DX Marathon contests, and even a six meter beacon list.

Dec 00-Jan 01 DX Reports

The following reports of 50 MHz and higher DX propagation are courtesy of JAI VOK, G4UPS, K6QXY, and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2001 except for months >02, when it is 2000. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, P=PSK31, R=RTTY, S=SSB, W=mode not mentioned (or both CW & SSB), H=heard only.
